- 2+ years of (IT) project management experience
- Demonstrated project management skills including project initiation, scoping, resourcing, scheduling, budgeting and risk management
- Moderate knowledge of all current trends in software delivery methodologies (Agile/SCRUM/Waterfall)
- Proven ability to effectively coordinate cross-functional teams
- Strong cross-functional communication and collaboration skills
- Project Management certification is a plus

We offer

- Responsibility from day one in a challenging working environment
- Networking and familiarization within the company
- Work & life service which provides advice and supports in all matters affecting work, life, family and health
- Global career opportunities and attractive remuneration packages

Who we are

With the merger of Wintershall and DEA Deutsche Erdoel AG, two successful companies with a long tradition have formed Europe's leading independent natural gas and oil company: Wintershall Dea. The company with German roots and headquarters in Kassel and Hamburg explores and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its shares in natural gas transport, is also a leader in the midstream business.

Wintershall Dea stands for more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company employs around 4,000 people worldwide from over 60 nations. The company plans to increase its average daily production from around 590,000 barrels of oil equivalent to a range of 750,000 barrels in the period between 2021 and 2023. In the medium term, an initial public offering of Wintershall Dea is envisaged.

We are looking forward to your application! Please apply via: jobs-germany@wintershalldea.com
