SPEAD FOR PROJECT ENGINEERS (M/F/D)

INTERNATIONAL (KASSEL)

The project engineer will take a role with increasing responsibility in a multi-discipline project team to develop and manage project scopes from a feasibility study, during the technical design, plant installation until commissioning and start-up for an oil & gas plant.

LOCATION

International (Kassel)

STARTING DATE

January 2020

CONTRACT TYPE

permanent

DEPARTMENT

Graduate Program

WORKING HOURS

Full-time

REFERENCE CODE

DE00008

Breakdown of main duties

- Liaise with clients of our operating companies to identify the technical requirements, constraints, deliverables and ensure clear scope
- Prepare conceptual, detailed engineering including commercial aspects for production, transportation and/or storage facilities
- Preparation of tender documents, technical tender evaluation and contract award in conjunction with procurement
- Contractor supervision during construction and fabrication acceptance tests of equipment
- Initiate hazard and operability (HAZOP) studies and safety review meetings
- Prepare, promote and support implementation of new technologies
- Maintain up-to date knowledge and communicate relevant news effectively to the worldwide Wintershall Dea operating companies

What you can expect

- A tailor-made combination of practical "on the job" training supplemented by selected technical training courses for a duration of 24 months
- Be part of a committed team and participate in challenging and meaningful business relevant projects in domestic and international assignment locations
- Clear and competent technical supervision from senior staff as well as proactive support from mentors and SPEAD coordinators

What we expect

- Master degree, equivalent or PhD (chemical engineering, process engineering, subsea engineering or related studies)
- University study in a reasonable time frame and demonstrable academic achievement
- At least one E&P relevant internship
- Fluent written and spoken English language skills and proficiency in another foreign language
- International experience (school exchange program, internship, study at foreign university)
- Highly developed social and interpersonal skills
- High flexibility and willingness to work and relocate internationally

We offer

- Responsibility from day one in a challenging working environment
- Networking and familiarization within the company
- Work & life service which provides advice and supports in all matters affecting work, life, family, and health
- Global career opportunities and attractive remuneration packages

wintershall dea

Who we are

With the merger of Wintershall and DEA Deutsche Erdoel AG, two successful companies with a long tradition have formed Europe's leading independent natural gas and oil company: Wintershall Dea. The company with German roots and head-quarters in Kassel and Hamburg explores and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its shares in natural gas transport, is also a leader in the midstream business.

Wintershall Dea stands for more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company employs around 4,000 people worldwide from over 60 nations. The company plans to increase its average daily production from around 590,000 barrels of oil equivalent to a range of 750,000 to 800,000 barrels in the period between 2021 and 2023. In the medium term, an initial public offering of Wintershall Dea is envisaged.
