PROFESSIONAL GRADUATE PROGRAMME INFORMATION TECHNOLOGY (M/F/D)

AT THE LOCATION KASSEL, GERMANY

LOCATION

Kassel, Germany

STARTING DATE

01.01.2021

CONTRACT TYPE

Permanent

DEPARTMENT

Information Technology

WORKING HOURS

Full-time

REFERENCE CODE

DEHH15

What you can expect

The rotational programme in the field of Information Technology offers you an opportunity for an 18-months initial development phase with an unlimited hiring at Wintershall Dea at our headquarters in Kassel. You will work with your personal mentor, an experienced colleague from this field, to determine the course and areas of emphasis of your individual programme, taking your interests and your knowledge, skills and abilities into account.

- From strategic planning, enterprise and data architecture, cyber security, service management and agile project management and beyond to the tasks of information services operations, you will pass through all of the areas of a modern IT/IS organization.
- You will be in direct contact with our internal customers and will capture strategic and operational business requirements and support the process of translating these requirements into IT/IS solutions.
- You will spend at least three months working on a challenging project at one of our sites in another country.
- To expand on your personal and professional skills, you will participate in seminars and workshops on the subject of introduction to the gas and oil industry, project management and/or presentation techniques.
- You will be an integral part of our team right from the start and develop towards the target function within cyber security.

What we expect

We are looking for committed and dedicated graduates who impress us with their personal initiative, flexibility and willingness to relocate. You impress us through the following requirements:

- Master's degree in computer science, business informatics, engineering or a related field of study with a focus on cyber security with above average grades.
- Initial practical experience in IT projects.
- At least three months of time spent abroad (in the form of a semester studying abroad or internships abroad).
- Fluent English language skills; additional foreign language skills are a plus.
- Enthusiasm for the gas and oil industry as well as for cyber security and digitalization, an innovative mindset and analytical and conceptual skills.
- For your work on international projects, you have intercultural skills.

We offer

In our flexible and individual rotational programme in Information Technology we will immediately begin preparing you for future assignments by giving you challenging tasks, exciting projects and responsibility - also abroad! You will gain insights about your own competencies and further your personal development. In addition, you can expect a quick integration through networking events, a variety of seminars and continuous support by a personal mentor. You can expect responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team. Become a part of our international team and start your future now!

wintershall dea

Who we are

Wintershall Dea is Europe's leading independent natural gas and oil company with more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company with German roots and headquarters in Kassel and Hamburg explores for and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its participation in natural gas transport, is also active in the midstream business.

Wintershall Dea was formed from the merger of Wintershall Holding GmbH and DEA Deutsche Erdoel AG, in 2019. Today, the company employs around 2,800 people worldwide from over 60 nations.

We are looking forward to your application! Please apply via: jobs-germany@wintershalldea.com
