- Experience in both onshore and offshore environment. International experience is a plus
- Ability to build and maintain close, constructive and trusting relations to stakeholders, including team members, other corporate functions and all relevant business units
- Self-motivated, pro-active, solution driven and having a client-orientated mindset. Ability to multi-task
- Multi-discipline understanding and insight into other facilities engineering disciplines, including reservoir production, topside process, subsea system, export system and characteristics of rotating machinery
- Good communication skills, effective across a broad spectrum of nationalities and cultures. Mobility is a plus
- Excellent command of the English language, written and spoken
- Adherence to company HSEQ requirements as well as company ethical guidelines and code of conduct

### We offer

- Responsibility from day one in a challenging working environment
- Networking and familiarization within the company
- Work & life service which provides advice and supports in all matters affecting work, life, family and health
- Global career opportunities and attractive remuneration packages

wintershall dea

## Who we are

Wintershall Dea is Europe's leading independent natural gas and oil company with more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company with German roots and headquarters in Kassel and Hamburg explores for and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its participation in natural gas transport, is also active in the midstream business.

**Wintershall Dea** was formed from the merger of Wintershall Holding GmbH and DEA Deutsche Erdoel AG, in 2019. Today, the company employs around 2,800 people worldwide from over 60 nations.
