

OVERVIEW

ENVIRONMENT, SOCIAL & GOVERNANCE

Environment & Climate Protection

We constantly minimise our ecological footprint, use resources efficiently and supply lower carbon energy through our gas-weighted portfolio.

Social Responsibility

We uphold high levels of social standards, and encourage our partners to do the same. Also we actively engage with all our stakeholders.

Governance

We are committed to working responsibly and creating trust through transparency.

We explore and produce gas and oil in the most efficient and responsible way.

We consider responsible business behavior as a prerequisite for long-lasting business success. At Wintershall Dea we have embedded Corporate Social Responsibility (CSR), and its related aspects, into our corporate strategy and activities.

Selected activities

Operating responsibly

The combination of state-of-the-art technology, highly-qualified employees and a unique safety concept has enabled incident-free operations at Mittelplate, Germany, since 1987.

Promoting Diversity

We believe that creation of an inclusive working environment leads to greater diversity, which has a positive impact on business success and drives innovative solutions. As a signatory of the German Diversity Charter we embrace diversity within our organisation, and advocate for open-mindedness and tolerance throughout society.

Fostering Compliance

Adherence to legal regulations and company's internal standards is at the core of all our activities. That is why, we have designed policies and procedures to ensure compliance and train our employees regularly.

Our way forward

Wintershall Dea's ambition as a new entity is to anchor a responsible business conduct as an integral part of its DNA. Currently we develop a **CSR strategy**, which also includes **dedicated Environmental, Social, Governance (ESG) targets**. Furthermore, we are developing and applying a **code of conduct** and align our corporate practices, standards, commitments and management systems. For new projects we assess sustainability criteria to ensure respective consideration in investment decisions and a strategic approach. We strive to provide high transparency in all activities. From 2020 onwards we will publish an annual **Corporate Responsibility Report** guided by the Global Reporting Initiatives (GRI). As a future listed company, we plan to report to **Carbon Disclosure Project (CDP)**. Furthermore, we also plan to support the **Task Force on Climate-related Financial Disclosures**.
