What you can expect

- You support the implementation of the sustainability strategy and sustainability management in the company.
- You create analyses, competitive comparisons, presentations and project documentation.
- You contribute to the processing of financial market-relevant ESG criteria.
- You participate in internal and external sustainability reporting and communication.
- In addition, you will assist preparing and conducting workshops.
- Your internship is rounded off by takeover of subprojects and defined tasks.

What we expect

- You are studying economics or natural science with a focus on sustainability, environmental sciences or sustainability management.
- You have already gained initial experience in the field of sustainability reporting.
- You have good knowledge of German and very good knowledge of English which are characterized by strong analytical skills.
- In addition, you are strong in communication and you score with a solution-oriented and structured way of working.

We offer

A demanding area of tasks with a high degree of personal responsibility. Your training takes place "on the job" in a dedicated, competent team.

Who we are

With the merger of Wintershall and DEA Deutsche Erdoel AG, two successful companies with a long tradition have formed Europe's leading independent natural gas and oil company: Wintershall Dea. The company with German roots and headquarters in Kassel and Hamburg explores and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its shares in natural gas transport, is also a leader in the midstream business.

Wintershall Dea stands for more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company employs around 4,000 people worldwide from over 60 nations. The company plans to increase its average daily production from around 590,000 barrels of oil equivalent to a range of 750,000 barrels in the period between 2021 and 2023. In the medium term, an initial public offering of Wintershall Dea is envisaged.

We are looking forward to your application! Please apply with your complete application documents as well as with your earliest possible start date and the possible duration of deployment via: jobs-germany@wintershalldea.com
