- High flexibility and willingness to work internationally

Technical tasks within our SPEAD-Programme for Production Engineers

- Flow modeling utilizing state-of-the-art software (e.g. IPM from Petex) for production optimization and allocation purposes
- Artificial lift involving concept selection, design and optimization during operation
- Well start-up and clean-up procedures & execution
- Day to day production & injection optimization involving
 - Well and process facility performance diagnostics and identify mitigating actions
 - Well testing for allocation purposes & Well integrity monitoring
 - Short term production & injection planning
- Providing petroleum engineering input to the planning & execution of sandface completions, workovers and well interventions
- Exposure to flow assurance issues such as scale precipitation, wax & asphaltene, deliquification, slugging
- Exposure to onshore & offshore operations involving workovers, well interventions, well testing, well clean-up

We offer

- Responsibility from day one in a challenging working environment
- Networking and familiarization within the company
- Global career opportunities and attractive remuneration package
- Work & life service which provides advice and supports in all matters affecting work, life, family, and health

Who we are

With the merger of Wintershall and DEA Deutsche Erdoel AG, two successful companies with a long tradition have formed Europe's leading independent natural gas and oil company: Wintershall Dea. The company with German roots and headquarters in Kassel and Hamburg explores and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its shares in natural gas transport, is also a leader in the midstream business.

Wintershall Dea stands for more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company employs around 4,000 people worldwide from over 60 nations. The company plans to increase its average daily production from around 590,000 barrels of oil equivalent to a range of 750,000 barrels in the period between 2021 and 2023. In the medium term, an initial public offering of Wintershall Dea is envisaged.

We are looking forward to your application! Please apply by submitting your motivation letter, CV, university grades and possible references via: jobs-germany@wintershalldea.com

Application Deadline: March 31, 2020
