What you can expect

- A tailor-made combination of practical “on the job” training supplemented by selected technical training courses for a duration of 24 months as an initial development phase with an unlimited hiring
- Be part of a committed team and participate in challenging and meaningful business relevant projects in domestic and international assignment locations
- Clear and competent technical supervision from senior staff, proactive support from mentors and SPEAD coordination

What we expect

- Master degree, equivalent or PhD (Petroleum Engineering, Chemical, Process or E&P relevant studies)
- University study in a reasonable timeframe and demonstrable academic achievement
- At least one E&P relevant internship
- Fluent written and spoken English language skills
- International experience (internship and / or study abroad, school exchange)
- Strongly developed social and interpersonal skills
- High flexibility and willingness to work internationally

Technical tasks within our SPEAD-Programme for Reservoir Engineers

- Integration of geological, petrophysical and production data into reservoir models
- Development of economical and innovative energy solutions for the future
- Recommendation of optimal development plans, including well locations, surveillance plans and depletion strategy
- Realization of reservoir simulation studies
- Forecast of oil and gas flow initial rates and production

We offer

- Responsibility from day one in a challenging working environment
- Networking and familiarization within the company
- Work & life service which provides advice and supports in all matters affecting work, life, family, and health
- Global career opportunities and attractive remuneration packages

Who we are

Wintershall Dea is Europe's leading independent natural gas and oil company with more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company with German roots and headquarters in Kassel and Hamburg explores for and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its participation in natural gas transport, is also active in the midstream business.

Wintershall Dea was formed from the merger of Wintershall Holding GmbH and DEA Deutsche Erdoel AG, in 2019. Today, the company employs around 2,800 people worldwide from over 60 nations.

We are looking forward to your application! Please apply by submitting your motivation letter, CV, university grades and possible references via: jobs-germany@wintershalldea.com

Application Deadline: February 28, 2021
