What you can expect

- Be a member of Wintershall Dea's security team with the task to develop and implement company-wide security standards for employees and contractors, sites and assets and support on crisis management.
- Support intelligence and information analysis, monitoring of security risks affecting the company's employees, assets, business and reputation.
- Perform risk assessments and define appropriate measures and mitigations. Communicate security risks to relevant stakeholders and act as a company-wide trusted advisor.
- Support the establishment of a strategic framework to secure resilience caused by disruption through business continuity, response and crisis management processes.
- Foster security awareness across the organization and guide on physical and site security, travel security, corporate event security and executive protection.
- Report to Vice President Quality, Governance and Assurance

What we expect

- Degree in security-, business continuity-, emergency-management or similar.
- Broad experience in the commercial security sector, law enforcement, the armed forces, or intelligence services.
- Experience in international operational settings and how these relate to, e.g., operational security and business continuity.
- Forward-looking mindset, with the ability to design and adapt for differing risk environments, scalability, and a globally evolving portfolio.
- Ability to influence and inspire the organization through translation of policies and procedures into personal proactive security behavior.
- Willingness for international business travel.
- Excellent command of written and spoken English.

We offer

- A demanding area of responsibility with high personal responsibility.
- Responsibility from day one in a challenging working environment.
- Attractive remuneration including company social services as well as excellent development opportunities in an international company.

wintershall dea

Who we are

With the merger of Wintershall and DEA Deutsche Erdoel AG, two successful companies with a long tradition have formed Europe's leading independent natural gas and oil company: Wintershall Dea. The company with German roots and headquarters in Kassel and Hamburg explores and produces gas and oil in 13 countries worldwide in an efficient and responsible manner. With activities in Europe, Russia, Latin America and the MENA region (Middle East & North Africa), Wintershall Dea has a global upstream portfolio and, with its shares in natural gas transport, is also a leader in the midstream business.

Wintershall Dea stands for more than 120 years of experience as an operator and project partner along the entire E&P value chain. The company employs around 4,000 people worldwide from over 60 nations. The company plans to increase its average daily production from around 590,000 barrels of oil equivalent to a range of 750,000 to 800,000 barrels in the period between 2021 and 2023. In the medium term, an initial public offering of Wintershall Dea is envisaged.
