COO Dirk Warzecha gives keynote speech at World Oil & Gas Week

Every year in December, the World Oil & Gas Week sets the stage for the global oil and gas community, to meet and discuss the state of the industry and opportunities for the future.

As in previous years, DEA contributed to this valuable key event, that combines thought provoking speeches with excellent networking opportunities.

In his keynote, DEA's COO Dirk Warzecha pointed out the conditions for successful collaboration between E&P operators and the service industry. He referred to the current market situation and the increased challenges the industry is exposed to, namely to maximise value and, at the same time, cut costs. The audience in London learned, how in the pre-development phase of DEA's Norwegian offshore project Dvalin a twenty percent overall cost reduction and a win-win-situation have been achieved.
